

Ibrahim Abou Halima

FULL-STACK · DEVOPS · MOBILE · SHOPIFY DEVELOPER

ibrahim.ihab@hotmail.com +965 60450463 Kuwait github.com/IbrahimMohamedAbouHalima

Full-stack developer building products end to end — MERN and Next.js on the web, Flutter and React Native on mobile, Shopify for retail, and the AWS infrastructure underneath. Fourteen live products shipped, front end, backend and deployment handled solo.

EXPERIENCE

Full Stack Developer — Mubaader Services

Mar 2025 — Present

- Built and shipped the group's web properties — the Mubaader landing page, Mubaader Realtor for real estate, and Theqa Invest for the investment arm.
- Work across the whole stack: MongoDB, Express, React and Next.js front ends, plus AWS hosting and deployment.
- Deliver mobile apps alongside the web products in React Native and Flutter.

SELECTED PROJECTS

Masarra — masarrakw.com

Event booking platform, website and mobile app. MERN, React Native.

Mubaader Realtor — mubaaderealtor.com

Real estate listings and enquiries. MERN with Next.js.

Mubaader — mubaader.com

Company landing page. MERN stack.

Givitude — givitudekw.com

Gift buying service. Next.js website, Flutter apps for iOS and Android.

Theqa Invest — theqainvest.com

Landing page for the investment sector. MERN stack.

Hamoo — hamookw.com

Shopify store for baby products — theme, catalogue and checkout.
